

# SuperAssilex

In today's new painting technology, that has less and less tolerance, deep scratches and over-sanding become a big concern...

Introducing **Super Assilex**.

A perfect sanding medium that provides speed, uniform coverage and an extremely shallow sanding pattern. It prevents irregular scratches that can be caused by Non-woven products or the risk of over-sanding by standard abrasive sheets.

Usage	Advantages
<ul style="list-style-type: none"> <li>• Light scuffing on Primer Surfer before painting.</li> <li>• Scuffing on ED Primer Coat of new parts.</li> <li>• Blending between repaired and non-repaired areas</li> <li>• Scuffing old paint or bumpers before painting.</li> <li>• Removes wax, incrustations, dirt and dust.</li> </ul>    	<ul style="list-style-type: none"> <li>• Fast and uniform coverage, leaves no unsanded areas.</li> <li>• Extremely shallow scratch pattern, safe from "over-sanding".</li> <li>• Flexible contact, ideal for concaved and convexed areas.</li> <li>• No Scuffing Compounds needed, no color residue to clean-up.</li> <li>• Efficiently removes wax, incrustations, dirt and dust.</li> <li>• Time saving of 70% or more thus greatly improves productivity.</li> <li>• Use pad L (p/n 971-0026) or LS (p/n 971-00268) for full sheets, or use pad M (p/n 971-0025) for half sheets.</li> </ul>
