

SuperAssilex

The techniques and materials for Scuffing, Blending and Primer Finishing haven't been perfect or satisfying to today's painting technology and professionals until now.

Introducing **Super Assilex**... a perfect sanding medium that provides speed, uniform coverage and an extremely shallow sanding pattern. It prevents irregular scratches caused by Non-woven products or the risk of over-sanding caused by standard abrasive sheets.

Usage	Advantages
<ul style="list-style-type: none"> Light scuffing on Primer Surfacers before painting. Scuffing on ED Primer Coat of new parts. Blending between repair and non-repair areas Scuffing old paint or bumpers before painting. Removes wax, incrustations, dirt and dust.    	<ul style="list-style-type: none"> Fast and uniform coverage, leaves no unsanded areas. Extremely shallow scratch pattern, safe from "over-sanding". Flexible contact, ideal for concaved and convexed areas. No Scuffing Compounds needed, no color residues to clean-up. Efficiently removes wax, incrustations, dirt and dust. Time saving of 70% or more thus greatly improves productivity. Use pad L (p/n 971-0026) for full sheets or use pad M (p/n 971-0025) for half sheets.  

Part No.	Item	Size	Finish Equivalent	Pcs per Unit	Units per Case
191-1508	Super Assilex Sky	170 x 130 mm	>P500	25	8
